

Guidelines for Reporting Continuing Education Activities

1. Self-Assessment

It is expected that health care professionals specializing in diabetes self-management education will want to demonstrate that their knowledge and skills are up-to-date and that they are able to practice proficiently and safely. It is hoped that all who participate in the initial/renewal of certification process will engage in a personal assessment to identify professional needs and participate in appropriate activities.

2. Continuing Education Cycles for 2012 Applications

Refer to the Accrual Cycles Table on the following page.

3. Continuing education activities:

- must be approved by a provider on the NCBDE List of Recognized Providers.
- must be applicable to diabetes. All subject matter on the Certification Examination Content Outline published in the 2012 Certification Handbook for Diabetes Educators is considered applicable to diabetes.
- must be completed as defined by the renewal of continuing education cycles policy. (All continuing education activities must be completed prior to the application deadline and before submitting the application.)
- must be at a professional level that enhances the quality and effectiveness of diabetes self-management education practice.
- does not have to be discipline specific nor does it have to be in any specific area of concentration, e.g., social workers may attend a diabetes related nursing program and use those clock hours for renewal of certification.

- B. Presentations – Participants may include in the time to be counted as clock hours the course overview, introductions, the educational presentation, and questions and answers. Time may not be counted for general announcements, breaks, lunch, exhibits, or poster sessions.
