Summary of the 2012 Certification Examinations and Renewal of Certification by Continuing Education

03/2013

The mission of the National Certification Board for Diabetes Educators (NCBDE) is to define, develop, maintain and protect the certification and credentialing process to promote quality diabetes education.

To inform the public, potential candidates, and those currently holding the Certified Diabetes Educator® (CDE®) credential, NCBDE each year publishes a summary of the results of the certification examination for diabetes educators (Examination) administered the previous year, and the results of renewal of certification by continuing education.

Certification Examination for Diabetes Educators — 2012

A total of 2,080 candidates took the Examination, 974 in the spring and 1,106 in the fall. Of the total, 65% took the examination for the first time, 24% had previously taken the examination, but had not passed, 4% were previously certified individuals whose credentials had lapsed, and 7% renewed certification status.

Pass/Fail Statistics

Spring 2012	Total	Pass	Fail
Candidates writing the examination for the first time	634	65.14%	34.86%
Candidates renewing certification by examination	37	97.37%	2.63%
Candidates with lapsed credentials (lapsed 2011)	36	86.11%	13.89%
Candidates with lapsed credentials (lapsed prior to 2011)	15	73.33%	26.67%
Candidates repeating due to unsuccessful previous attempt(s)	251	37.45%	62.55%
Total Candidates Spring Administration	974	60.16%	39.84%

Pass/Fail Statistics

Fall 2012	Total	Pass	Fail
Candidates writing the examination for the first time	715	62.10%	37.9%
Candidates renewing certification by examination	114	92.11%	7.89%
Candidates with lapsed credentials (lapsed 2011)	10	50.00%	50.00%
Candidates with lapsed credentials (lapsed prior to 2011)	12	83.33%	16.67%
Candidates repeating due to unsuccessful previous attempt(s)	255	41.18%	58.82%
Total Candidates Fall Administration	1106	60.49%	39.51%

2012 Renewal of Certification by Continuing Education

Renewal by continuing education in 2012 required that CDEs hold the license or registration for the same discipline held at the time of initial certification and, during the five year recertification cycle, a) meet the renewal practice requirement of 1000 hours of professional practice, and b) earn 75 hours of continuing education in content areas applicable to diabetes. For those CDEs who meet the practice experience requirement, the renewal by continuing education option may be used each time recertification is due. A CDE® who cannot document meeting the practice requirement must sit for the Examination and include documentation they have earned the required hours of continuing education at the time of application for the Examination.

A total of 2,304 CDEs submitted applications for renewal of certification by continuing education; more than 99% successfully completed the process.

NCBDE

NCBDE was established in 1986 to promote the interests of diabetes educators and the public at large by granting certification to qualified health care professionals involved in teaching persons with diabetes through the establishment of eligibility requirements and development of a written examination. When the first examination was offered in 1986, 1,248 health care providers successfully completed the certification process to become the inaugural group of CDEs. The NCBDE certification process is a voluntary testing program used to assess the qualified health care professional's knowledge in diabetes self-management education. There were 17,877 credentialed CDE® health care providers as of January 1, 2013.

CDE® Credential

The credential demonstrates to people with diabetes, employers, and third party payers that the CDE possesses distinct and specialized knowledge, thereby promoting quality of care for patients with diabetes. This certification has become the recognized standard for competence in diabetes self-management education. As the number of individuals diagnosed with diabetes continues to increase, it is important for them to have access to the services of CDEs. NCBDE is committed to maintaining the quality and integrity of the CDE® credential.
